## **DETAILED ACTION**

### ***Allowable Subject Matter***

Claims 1-12 are allowable over the prior art of record.

### ***Reasons for Allowance***

The following is an examiner's statement of reasons for allowance: Applicants have claimed the following uniquely distinct features in the instant invention, which are not found in the prior art, either singularly or in combination:

1. Regarding claim 1 - Process for testing switching system receiving data units according to a point-to-point transmission interface format originating from an external network facility, the data units transporting packets of a higher layer protocol, the process comprising the steps of: processing first data units originating from the external network facility so as to recover first packets transported by the first data units, generating test traffic carried by second packets of said higher layer protocol, multiplexing the first and second packets so as to form a stream of multiplexed packets, converting the stream of multiplexed packets into second data units according to said point-to-point transmission interface format, and transmitting the second data units to the switching system.
2. Regarding claim 8 - Device for inserting traffic comprising first and second interface modules supporting a point-to-point transmission interface format for transferring data units

Art Unit: 2662

transporting packets of a higher layer protocol, the first interface module being arranged to receive first data units originating from a network facility and the second interface module being arranged to send second data units to a switching system, the device further comprising multiplexing means for forming a stream of multiplexed packets comprising first packets recovered by the first interface module from the first data units and second packets of said higher layer protocol carrying additional traffic, the second data units being produced by the second interface module on the basis of the stream of multiplexed packets.

The closest prior art, either singularly or in combination, fail to anticipate or render the above limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

Claims 1-12 being allowable, **Prosecution On The Merits Is Closed** in this application.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
